CAREER OBJECTIVE

A challenging career as a .NET Developer where I can improve my skills and contribute to a dynamic developer team.

EMPLOYEMENT HISTORY

.NET Consultant and Developer - SOAT, Paris, France **-** *March 2015 – Present*
SOAT is an IT Services Company specialized in Microsoft, Web and Mobile Technologies in an agile environment.

As a .NET consultant for Eurosport, I am in charge of 3 softwares which manage the programs scheduling for all Eurosport channels.
- Corrective maintenance (C#, XAML, WPF, WCF)
- Adaptative and progressive maintenance as new channels are created
- User service and assistance
- Technical and user documentation writing

––––––––––––––––

.NET Developer - **Freelance,** Paris, France - *December 2014 – Present*
I spend some of my free time developing apps for mobile and tablets. I developed 2 apps so far.

Spicer: Spicer is a smartphone application that recommends activities for couples. I was in charge of the design for all platforms and development of the Windows Phone app.
- Creation of the specifications for the Android, iOS and Windows Phone apps
- Development of the Windows Phone app (C#, XAML)
- Unit testing

Sugar Mole: Sugar Mole is a home automation application for smartphones and tablets. The app lets you manage the connected objects of your house and create scenarios that let the objects interact together to automatically control your home. I was in charge of the design for all platforms and development of the Windows Phone and tablet app.
- Creation of the specifications for the Android, iOS and Windows Phone apps
- Development of the Universal App (Windows Phone + tablet in C#, XAML)
- Unit testing

––––––––––––––––

.NET Developer - **MCNEXT**, Paris, France - *September 2014 – February 2015*
MCNEXT is an IT Services Company specialized in Microsoft's technologies.

I developed a website for Vinci Construction to manage reprography tasks.
- Development of Rest Web services (C#)
- Development of the User Interface (AngularJS, Javascript, HTML5)
- Management of data with Entity Framework
- Creation of a feature to generate PDF

Software and Quality Assurance Developer - DP TECHNOLOGY, Camarillo, USA, *May – October 2013*
DP TECHNOLOGY is a leading developer and supplier of computer-aided manufacturing (CAM) software for a full range of machine tool applications. ESPRIT, DP Technology's flagship product, is a powerful, high-performance, full-spectrum programming system for milling, turning, wire EDM, and multi-tasking machine tools.

As a software quality assurance developer I was in charge of running Unit Tests and Regression Tests on every version of ESPRIT. I developed and updated the tools used to run the tests and I was also in charge of the SQA maintenance and bug reporting.
I was in charge of the company's software quality.
- Creation, update and launch of unit and regression tests (C#, C++)
- Analyze of errors and creation of reports sent to the developer team
- Addition of features to the tests softwares (C#, XAML, VB.NET, WPF)
- Creation of a module that generates statistics about the tests results (C#, XAML)
- Creation of performance tests

EDUCATION

Master's degree in Information Technologies, EPITECH, France, 2014 – 2015
During 2 years I was leading a team of 7 students through the realization of a project called PinMessaging. It's a mobile and web application that allows users to access, create and share geo localized content.

Master 1 in Computer Science, California State University Long Beach, USA, 2013 – 2014
I spent one year abroad studying computer science and business intelligence.

Bachelor's degree in Information Technologies, EPITECH, France, 2011 – 2013

International House, Toronto, Canada, August 2012 – November 2012
I spent 4 month abroad to improve my English and communication skills

COMPUTER SKILLS

- C, C++
- C#, VB.NET, XAML, WPF, WCF, LINQ
- Windows Phone 8/8.1, Universal Apps, MVVM
- Lua, SQL
- Word, Excel, PowerPoint, PowerAMC
- SQL Server, Visual Studio (2010 - 13), Blend, QT Creator
- Git, Mercurial, Subversion, AccuRev, Team Foundation Server

LANGUAGE

- French (mother tongue)
